## Test 1

# Replicate this Restaurant service (horeca) page on a Shopify back-end

Our existing Horeca Page is built on Shopify using a Motion theme.

You can use a default theme as per your convenience to replicate the page exactly, along with certain additions mentioned later.

you can add placeholder assets from google instead of the ones available on the website

The image shows a mobile app interface with a grey header, a white form area, and a tan footer. The header contains the text 'Want to see our Ware?' and 'Come visit our store in Mumbai' with a 'Get Directions' button. The form area is titled 'Request a Horeca Catalogue' and contains three input fields for 'Name', 'Email', and 'Phone number', followed by an orange 'Send' button. The footer contains a list of links: 'About us', 'Ware store - Lower Parel, Mumbai', 'Restaurant & café tableware', 'Blogs - Our learnings & thoughts', 'Return or Exchange your order', and 'Events - you don't want to miss'. An orange arrow points from the text 'Test 1: A' to the 'Phone number' input field.
